1.0	Final	29 May 2014	Marc Metzger, Mark Rounsevell & Jessica Bryson, The University of Edinburgh

A series of 16 short films have been recorded for the OPERAs project so far – covering a range of topics. The purpose of these short films is to introduce the overall concepts of the research and to discuss particular elements of the research (for example, valuation). They also provide a broad overview of the project across its various work packages. The films were shot in a talking heads format.

Table 1 below shows the list of current short films which are available to all on the OPERAs website (<http://operas-project.eu/>) or the OPERAs You Tube Channel (http://www.youtube.com/playlist?list=PLnS0l_oqh9yX4t1f2qCqALuA0b7IIAlIF)

Figure 1 shows a screen shot of the OPERAs project You Tube Channel, while Figure 2 shows the OPERAs website front page with “Latest Videos” clearly shown.
